DETAILED ACTION

1. According to paper filed on July 8, 2008, the applicants have canceled claims 1-28 and furthermore, have added new claims 29-53.
2. Claims 29-53 are now pending in the application.

Response to Arguments

3. Applicant's arguments filed on July 8, 2008 have been fully considered but they are not persuasive regarding prior art rejection of instant claims 50-53 over Boehm's reference. As stated clearly in the last office action, the pentahydrate form of topotecan will not be maintained following its in vivo administration and furthermore, the anticancer activity is due to compound itself and does not reside in the hydrate form. The anticancer activity of the instant hydrate form will be inherent since Boehm teaches anticancer activity of topotecan in various animal tumor models.

Conclusion

4. The rejection of instant claims 50-53 under 35 U.S.C. 102(b) is maintained for the reasons of record.
5. Claims 29-49 are allowed.
6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
